ACTION REQUESTED: Consider Resolution to Approve Funding for Asbestos Abatement at the New Cultural Center (Former City Library – 2005 Inkster Rd).

TYPE OF ACTION: Current Action

FUNDS BUDGETED: No **ACCOUNT #:**

APPROVERS:

Georgina Holliday, City Clerk — Date: June 11, 2026

BACKGROUND:

The City of Inkster is actively working to transition the former City Library, located at 2005 Inkster Road, into the city's new Cultural Center. According to the city's zoning ordinance, Museums and Cultural Centers are permitted uses in this district, making this project a vital addition to community enrichment.

To safely proceed with interior renovations and retrofitting, a comprehensive environmental assessment was conducted, identifying hazardous asbestos-containing materials (ACM) that must be mitigated.

This request seeks approval to contract with an environmental remediation firm to perform necessary asbestos abatement. Completing this work is a critical prerequisite before any structural or aesthetic renovations can safely begin.

RE: Asbestos Abatement Proposal – Former Library
2005 Inkster Rd, Inkster, MI 48141

Dear Mr. Byrd:

Environmental Maintenance Engineers, Inc. (EME) is pleased to submit the following proposal of services for avian debris clean up and asbestos removal at the above referenced location per a site visit conducted on May, 28, 2009.

EME will provide all Michigan licensed labor, supervision, equipment, materials and disposal necessary to complete the identified scope of work:

SCOPE 1: Set up as necessary including required engineering controls. Clean avian debris from main floor and steps to basement. Remove 20 asbestos fittings from Basement. Remove 15 exposed and accessible asbestos fittings from Entry. Remove approx. 6,800 as asbestos floor tile and mastic from main floor. Provide third party asbestos air monitoring. $24,400.00

All asbestos abatement will be completed utilizing the approved negative pressure containment procedures for Class II removal. Work areas will be sealed off with poly seals and negative pressure filter equipment will be installed. Hepa vacs and wet methods will be used during removal.

We are prepared to proceed with the execution of this project. If you have any questions or if I can be of further assistance please do not hesitate to call me at 313.791.2600.

Sincerely,

ENVIRONMENTAL MAINTENANCE ENGINEERS, INC.

CITY COUNCIL AGENDA ACTION REQUEST

MEETING DATE: 6-15-2026

DEPARTMENT: Planning and Development

PREPARED BY: Derek Dowdell, Community Development Director

SUBJECT

Resolution to Approve Funding for Asbestos Abatement at the New Cultural Center (Former City Library – 2005 Inkster Rd).

BACKGROUND / SUMMARY

The City of Inkster is actively working to transition the former City Library, located at 2005 Inkster Road, into the city's new Cultural Center. According to the city's zoning ordinance, Museums and Cultural Centers are permitted uses in this district, making this project a vital addition to community enrichment.

To safely proceed with interior renovations and retrofitting, a comprehensive environmental assessment was conducted, identifying hazardous asbestos-containing materials (ACM) that must be mitigated.

This request seeks approval to contract with an environmental remediation firm to perform necessary asbestos abatement. Completing this work is a critical prerequisite before any structural or aesthetic renovations can safely begin.

RECOMMENDATION

It is recommended that the Inkster City Council approve the resolution authorizing the contract and expenditure of **$25,495.00** for the asbestos abatement services at 2005 Inkster Road.

FISCAL IMPACT

- **Total Cost:** $25,495.00

PROPOSED RESOLUTION

RESOLVED, that the Inkster City Council hereby approves the contract for asbestos abatement services at the new Cultural Center (Former City Library, 2005 Inkster Rd) for **$25,495.00**; and

BE IT FURTHER RESOLVED, that the Mayor is authorized to execute all necessary contractual documents on behalf of the City of Inkster, subject to approval as to form by the City Attorney.

BACKGROUND:

Implement the "Safe City" Project through Flock

SCOPE OF SERVICES:

JUSTIFICATION:

The Inkster Police Department seeks to implement Flock Safety cameras, drones, and License Plate Readers (LPRs) to enhance public safety, deter crime, and improve investigative effectiveness. These technologies provide real-time intelligence that assists officers in locating suspects, recovering stolen vehicles, responding to critical incidents, and generating valuable investigative leads. As part of the Safe Cities initiative, this investment will strengthen crime prevention efforts, improve response capabilities, and help create a safer community for all residents.

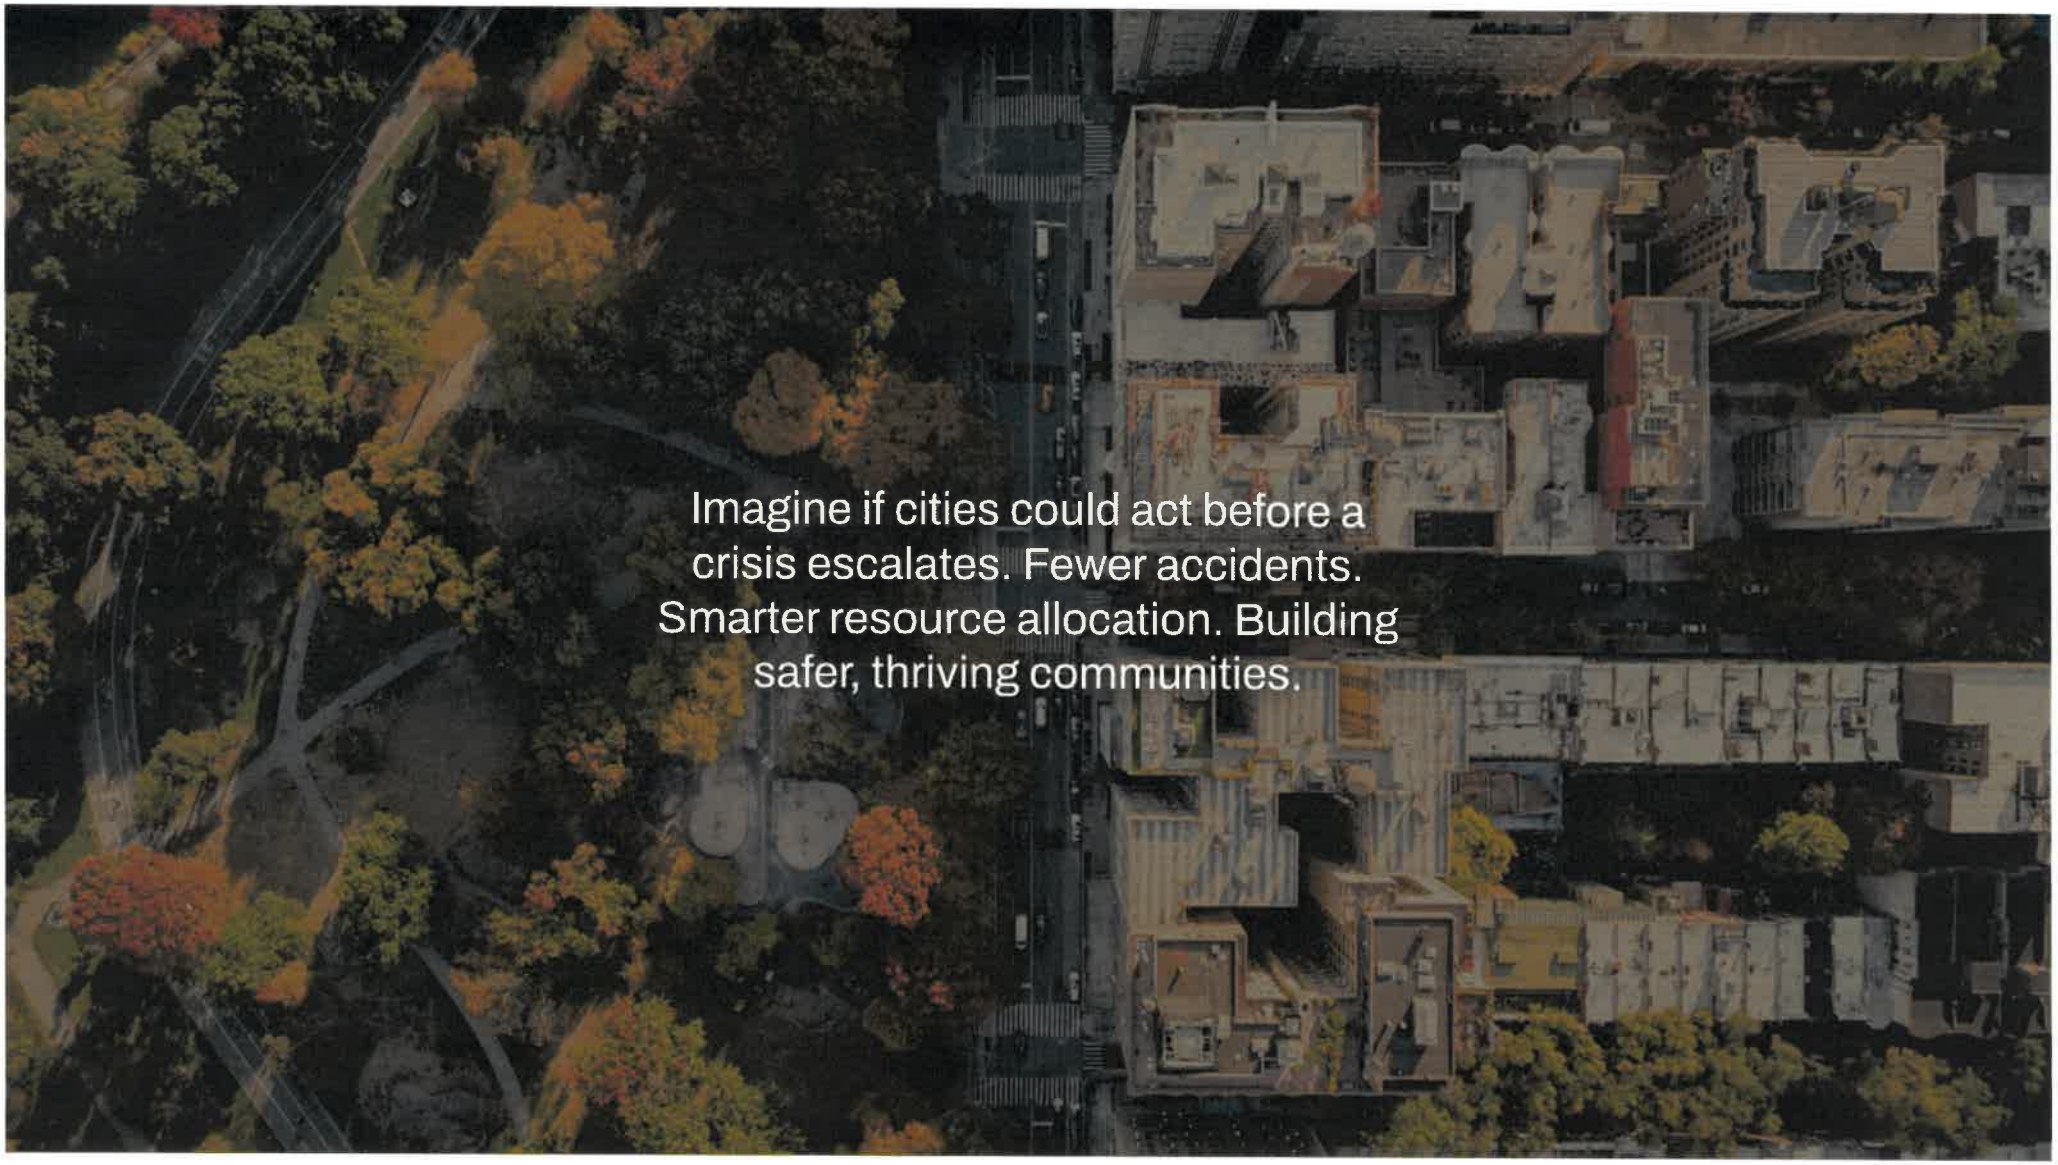
Safe City

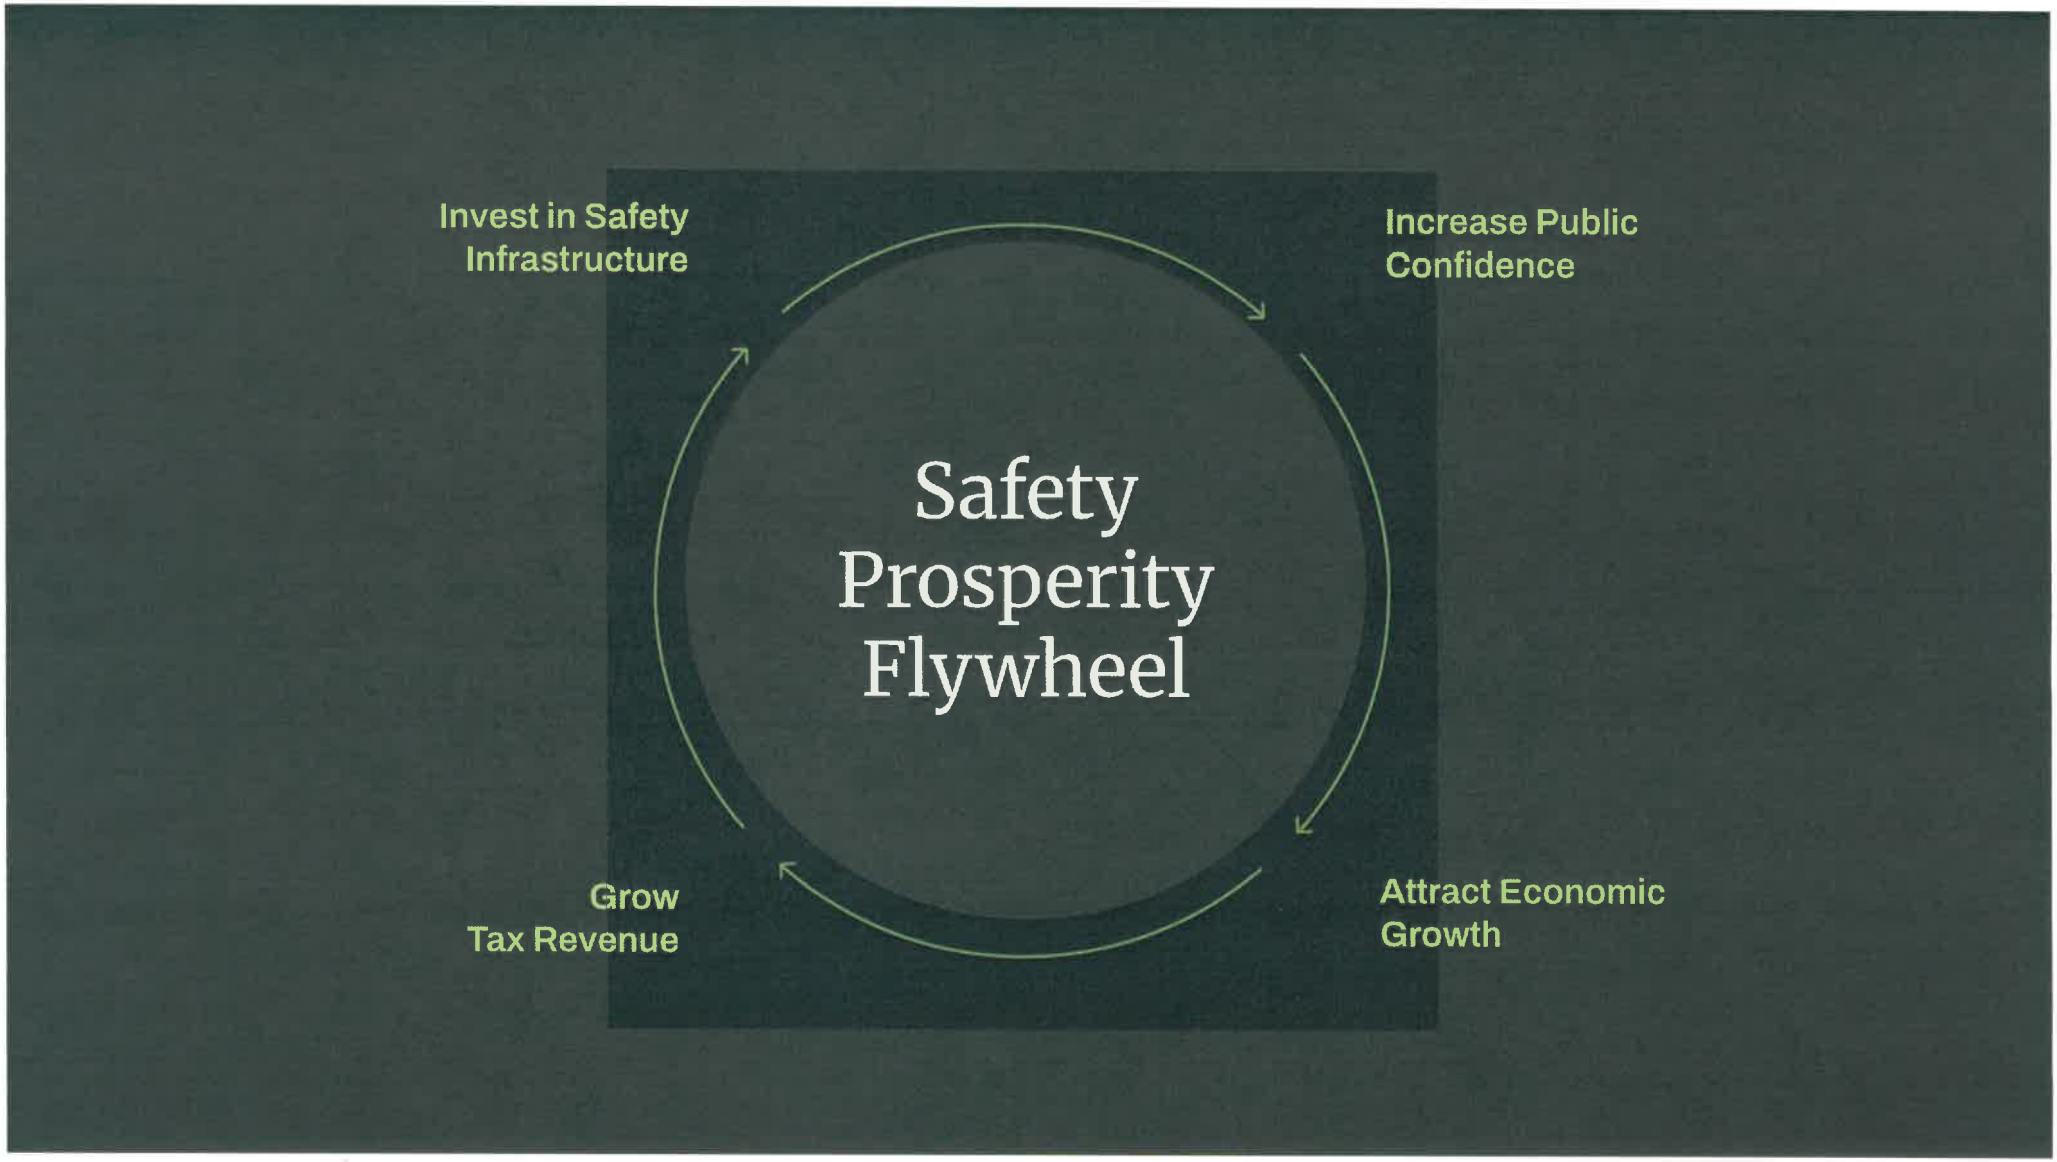
Inkster, Michigan

Welcome to your

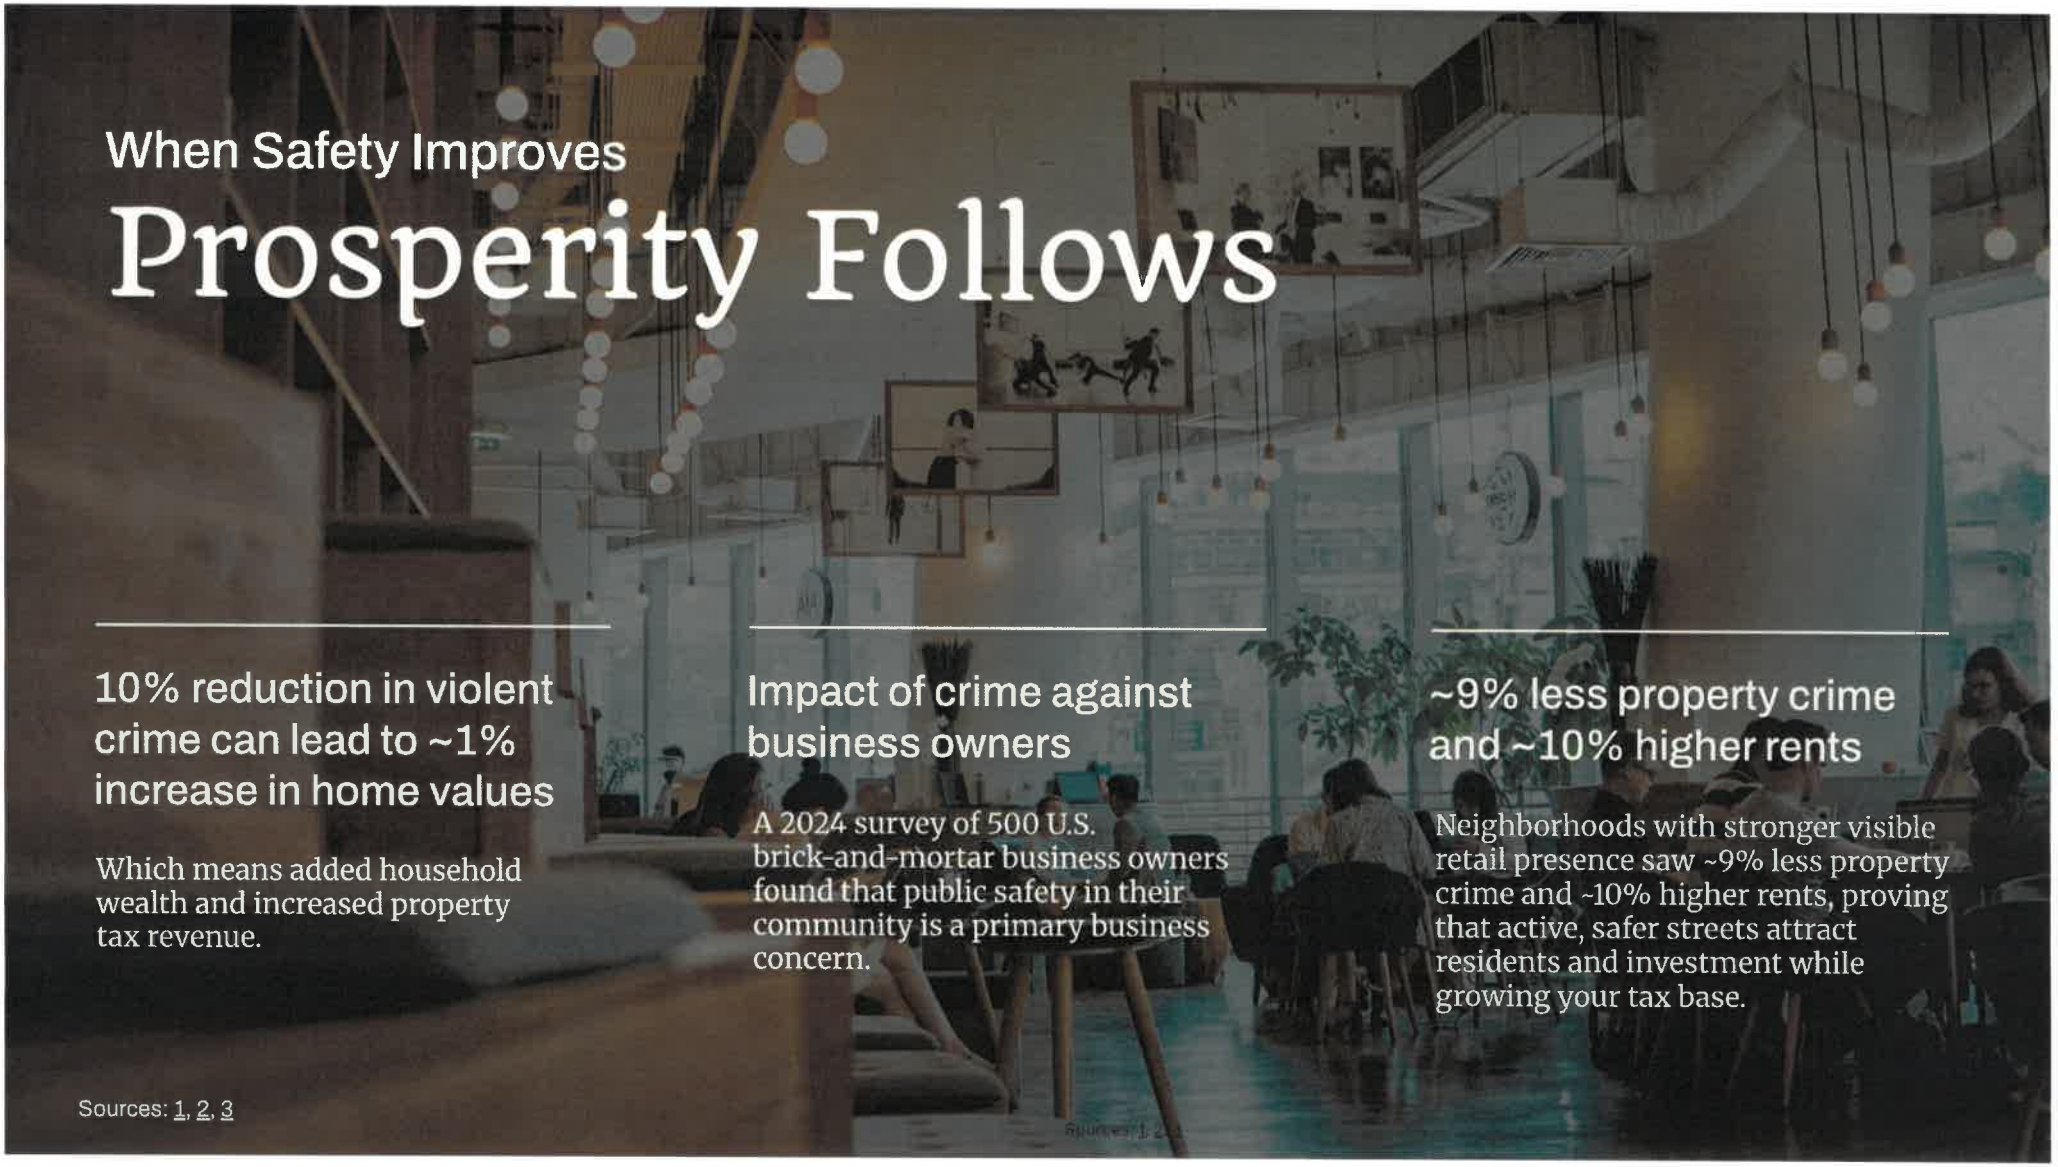
Flock Safety



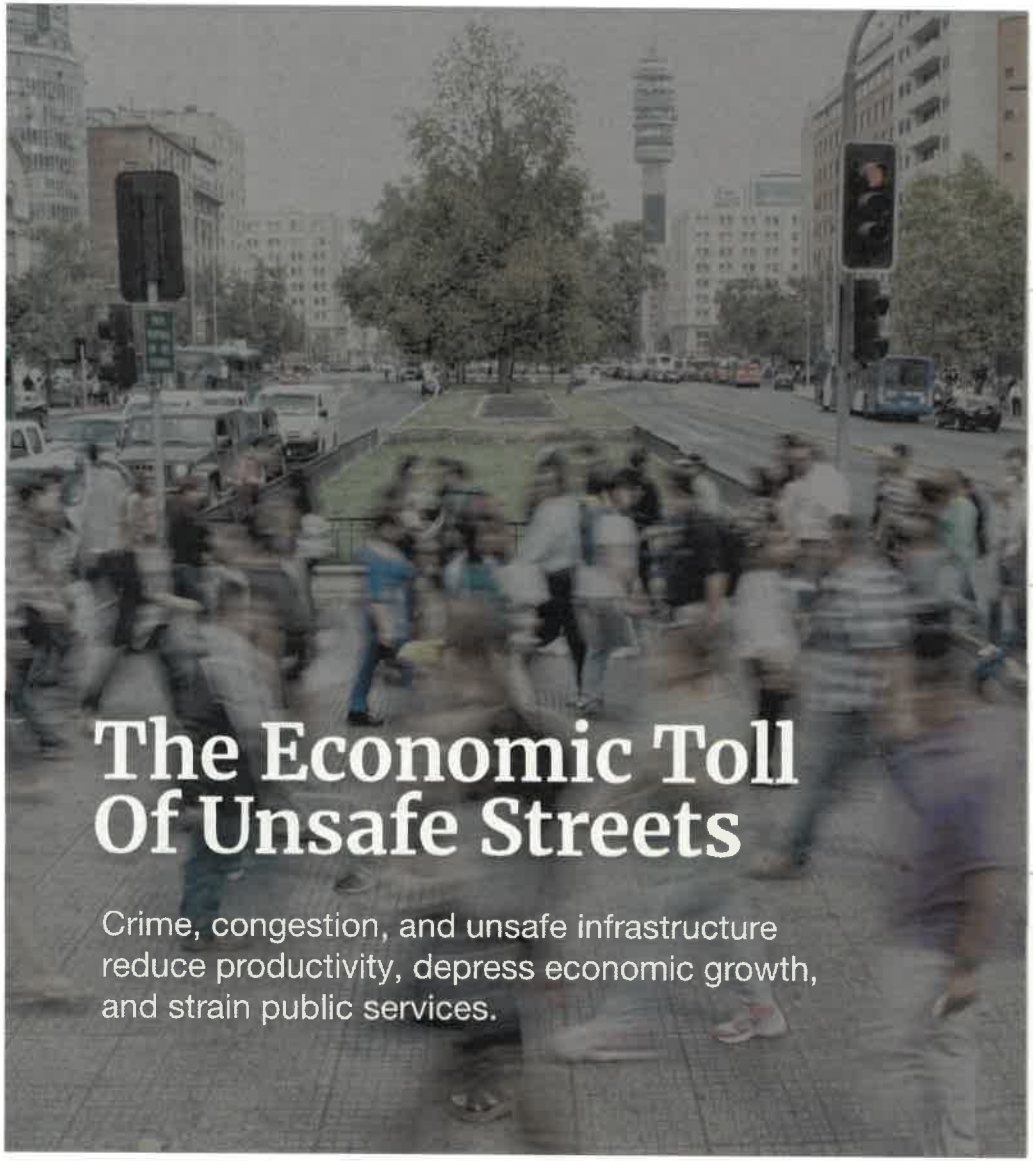
Imagine if cities could act before a
crisis escalates. Fewer accidents.
Smarter resource allocation. Building
safer, thriving communities.



Invest in Safety Infrastructure
Increase Public Confidence
Safety Prosperity Flywheel
Grow Tax Revenue
Attract Economic Growth



When Safety Improves
Prosperity Follows
10% reduction in violent crime can lead to ~1% increase in home values
Which means added household wealth and increased property tax revenue.
Impact of crime against business owners
A 2024 survey of 500 U.S. brick-and-mortar business owners found that public safety in their community is a primary business concern.
~9% less property crime and ~10% higher rents
Neighborhoods with stronger visible retail presence saw ~9% less property crime and ~10% higher rents, proving that active, safer streets attract residents and investment while growing your tax base.
Sources: 1, 2, 3



The Economic Toll Of Unsafe Streets

Crime, congestion, and unsafe infrastructure reduce productivity, depress economic growth, and strain public services.

>40k

traffic fatalities and 2.6 million hospitalizations occur annually in the U.S.

54hr

The average commuter loses 54 hours per year to traffic delays.

$224B

in economic losses stem from car crashes alone.

Imagine if cities could act before a crisis escalates. Fewer accidents. Smarter resource allocation. Building safer, thriving communities.

The Economic Potential for Safe Events

Successful events → More events →
More economic benefit for local business.

+$1M

Hosting multi-day events drives up to $1M in hospitality revenue per day across food and lodging.

With the proper safety infrastructure, you can attract visitors, increases tax revenue, and enhance local economic impact.

Protect What Families Value Most

Safe schools are the bedrock of a thriving community. Address risks proactively amidst staffing shortages.

Sources: 1 2 3 4

1150

Guns were seized in U.S. K-12 schools during the 2022-2023 academic year.

1239

Students were picked up by non-custodial parents during the 2022-2023 school year.

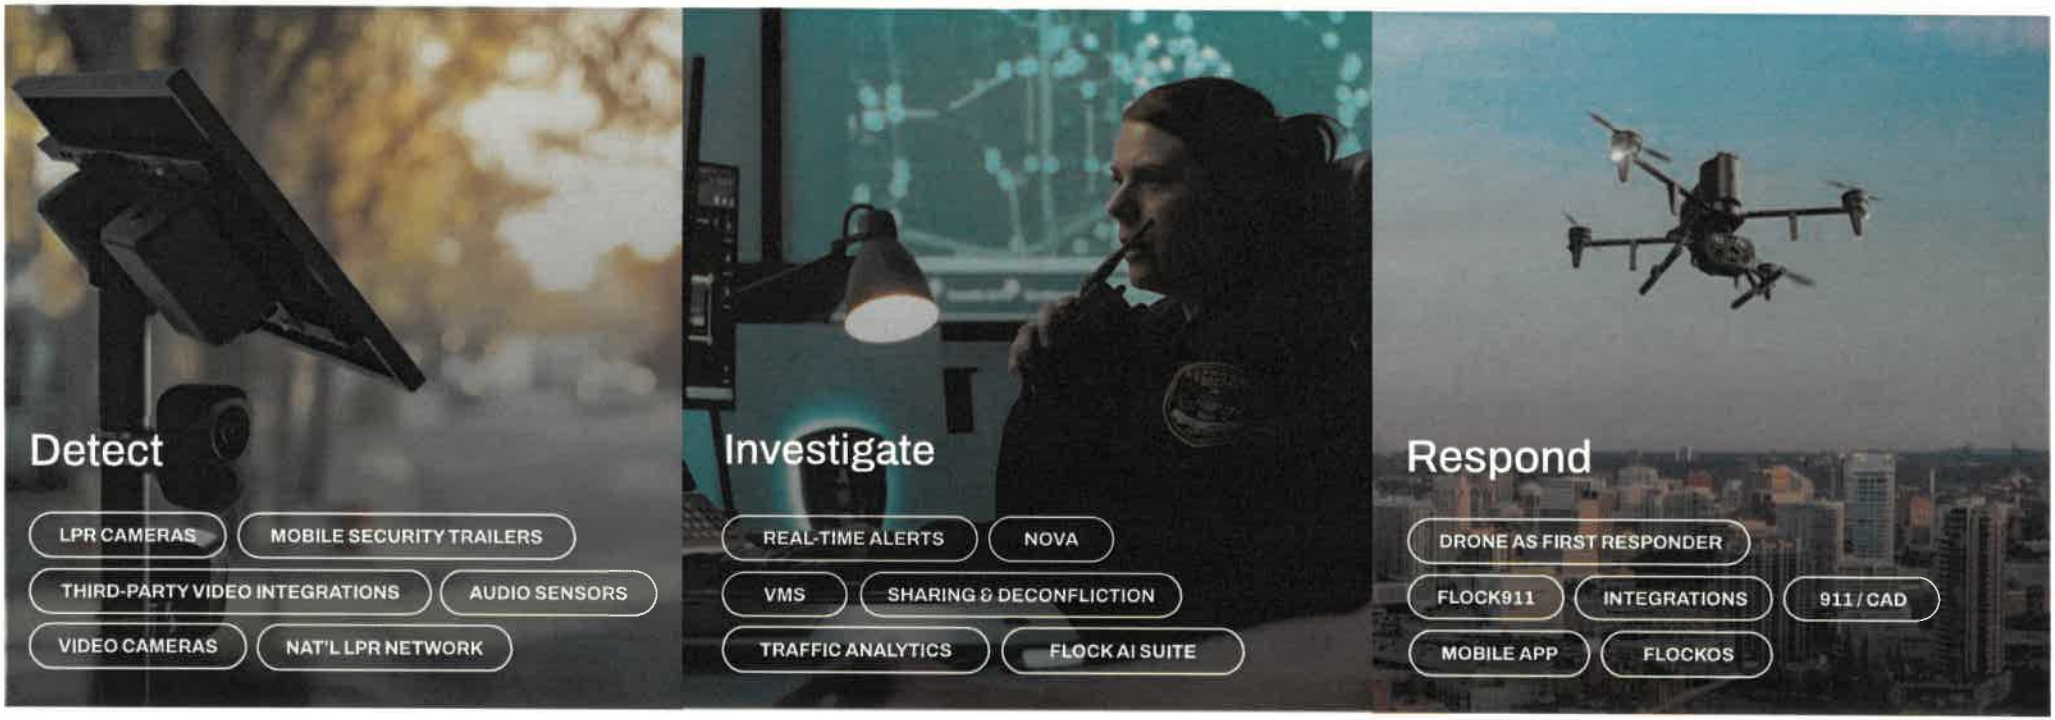
20%

Less than 20% have dedicated school resource officers.

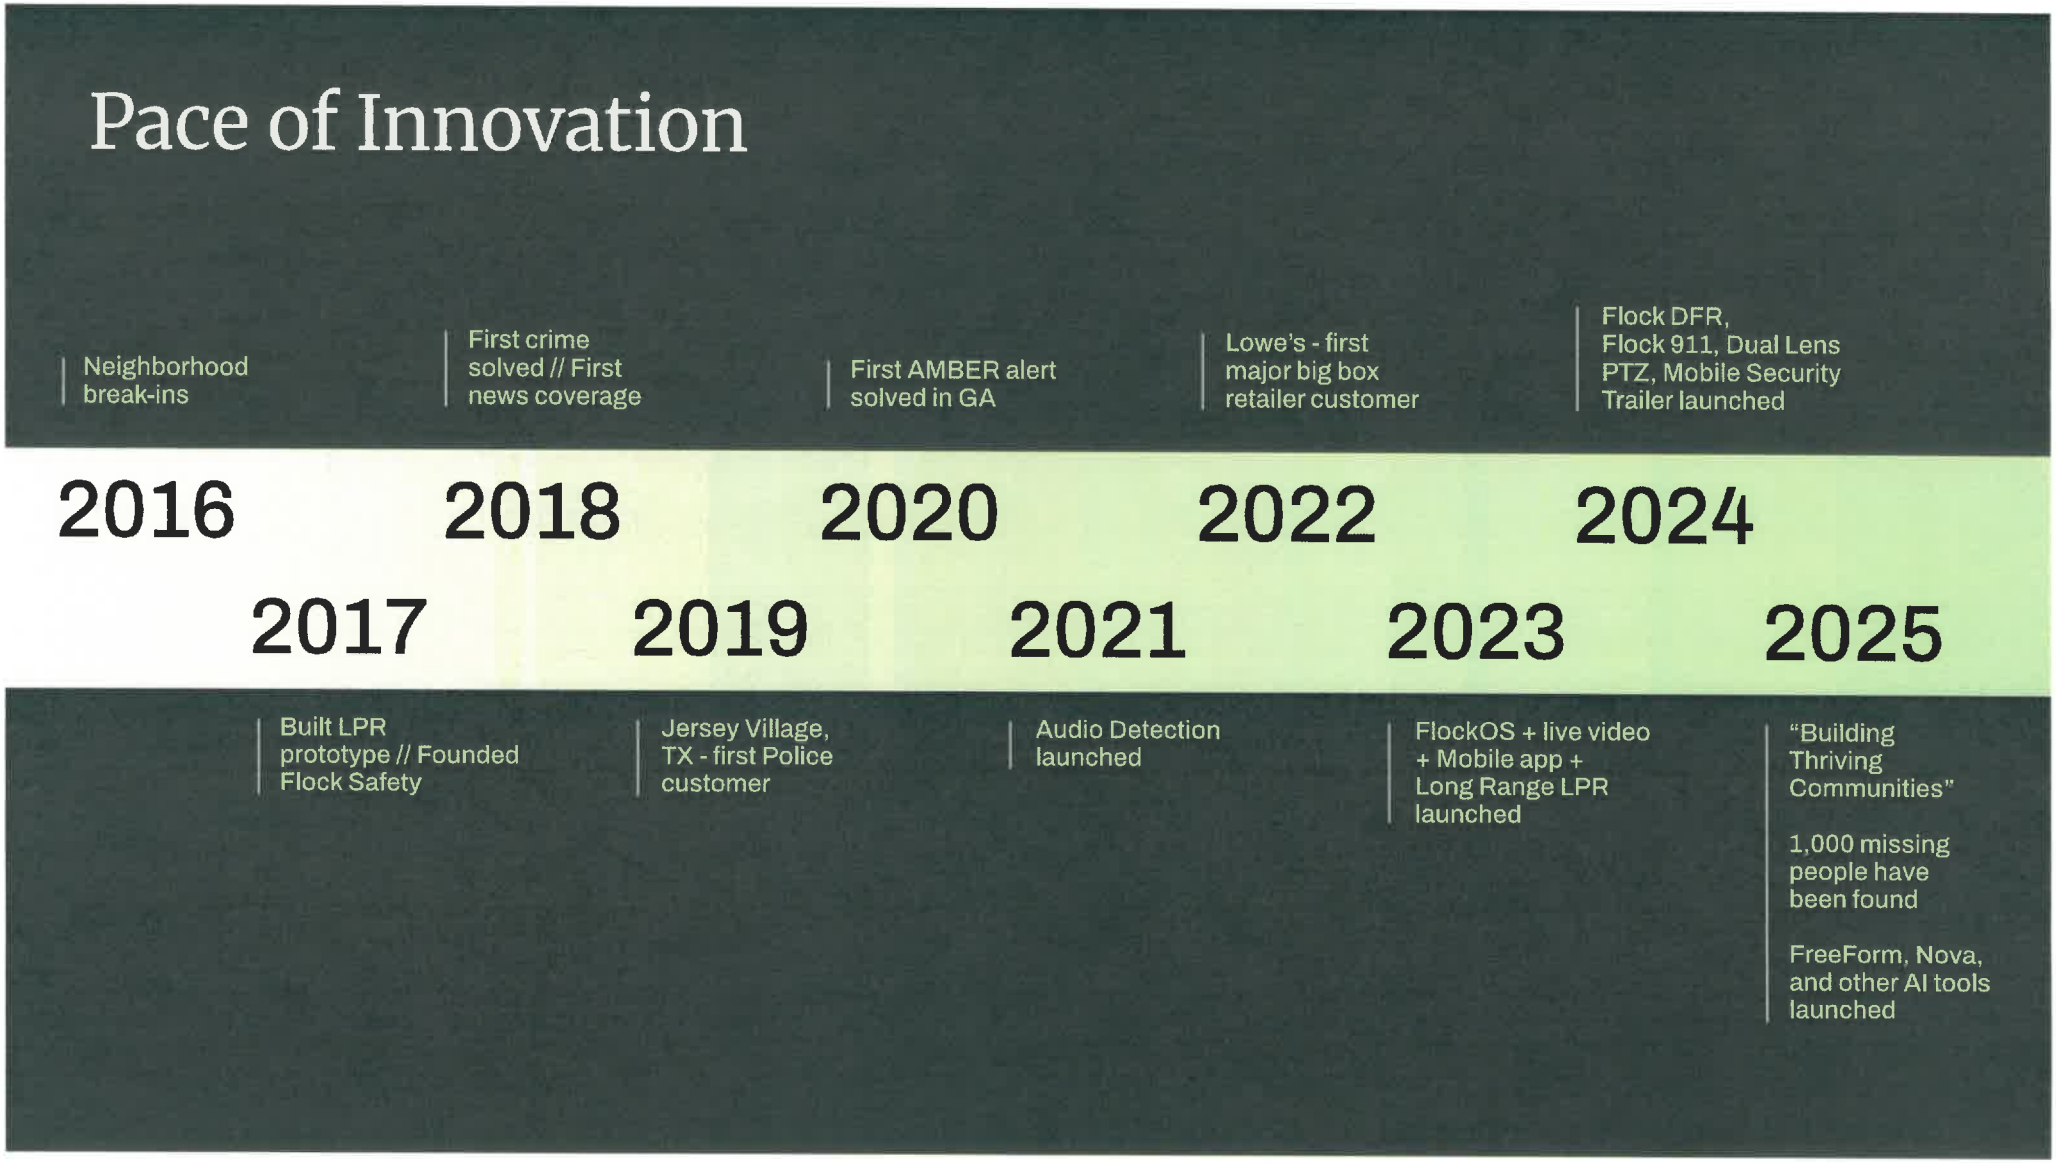
44%

Of parents fear for their children's safety when they leave for school.

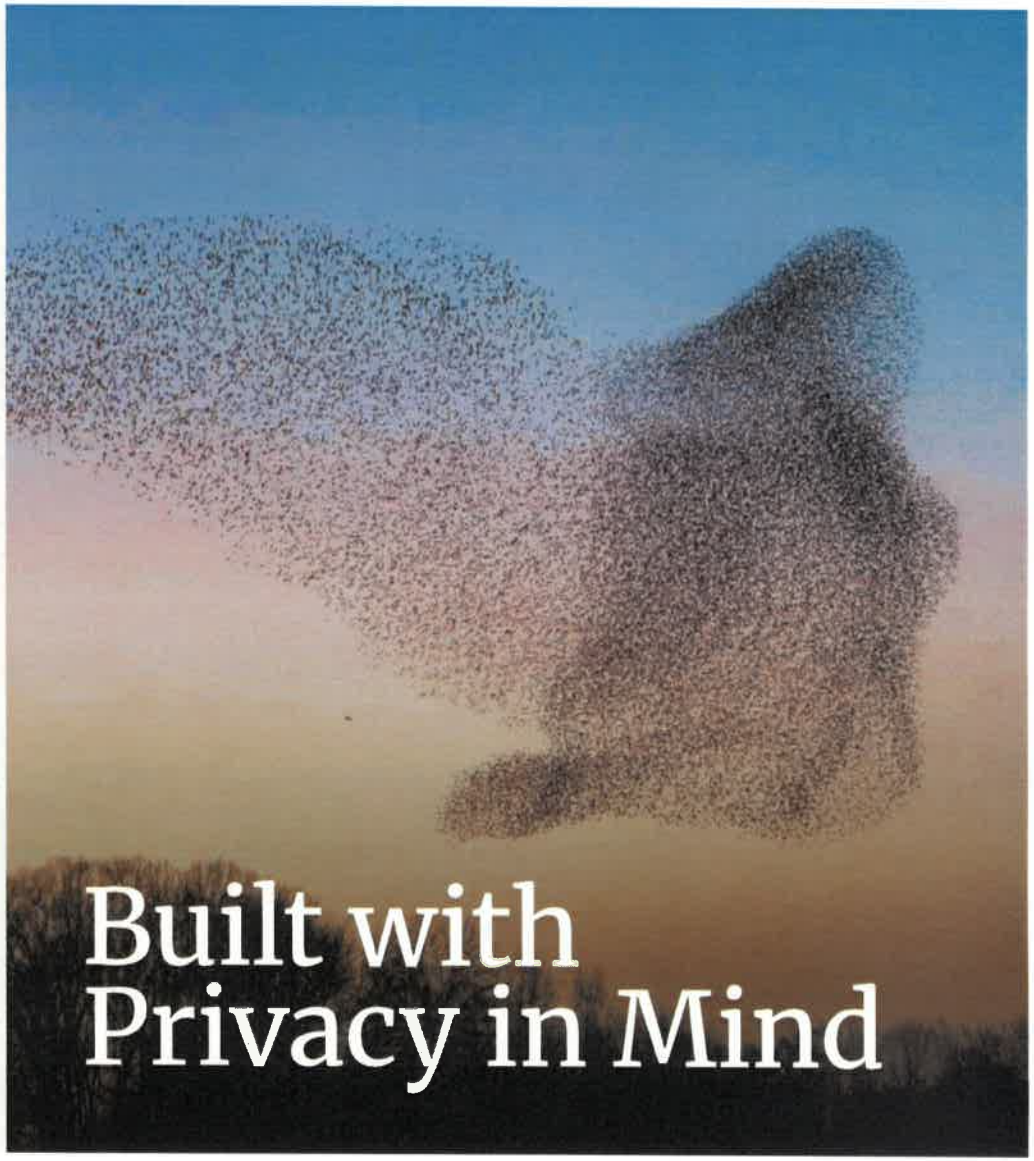
The Foundations Behind Every Safe City

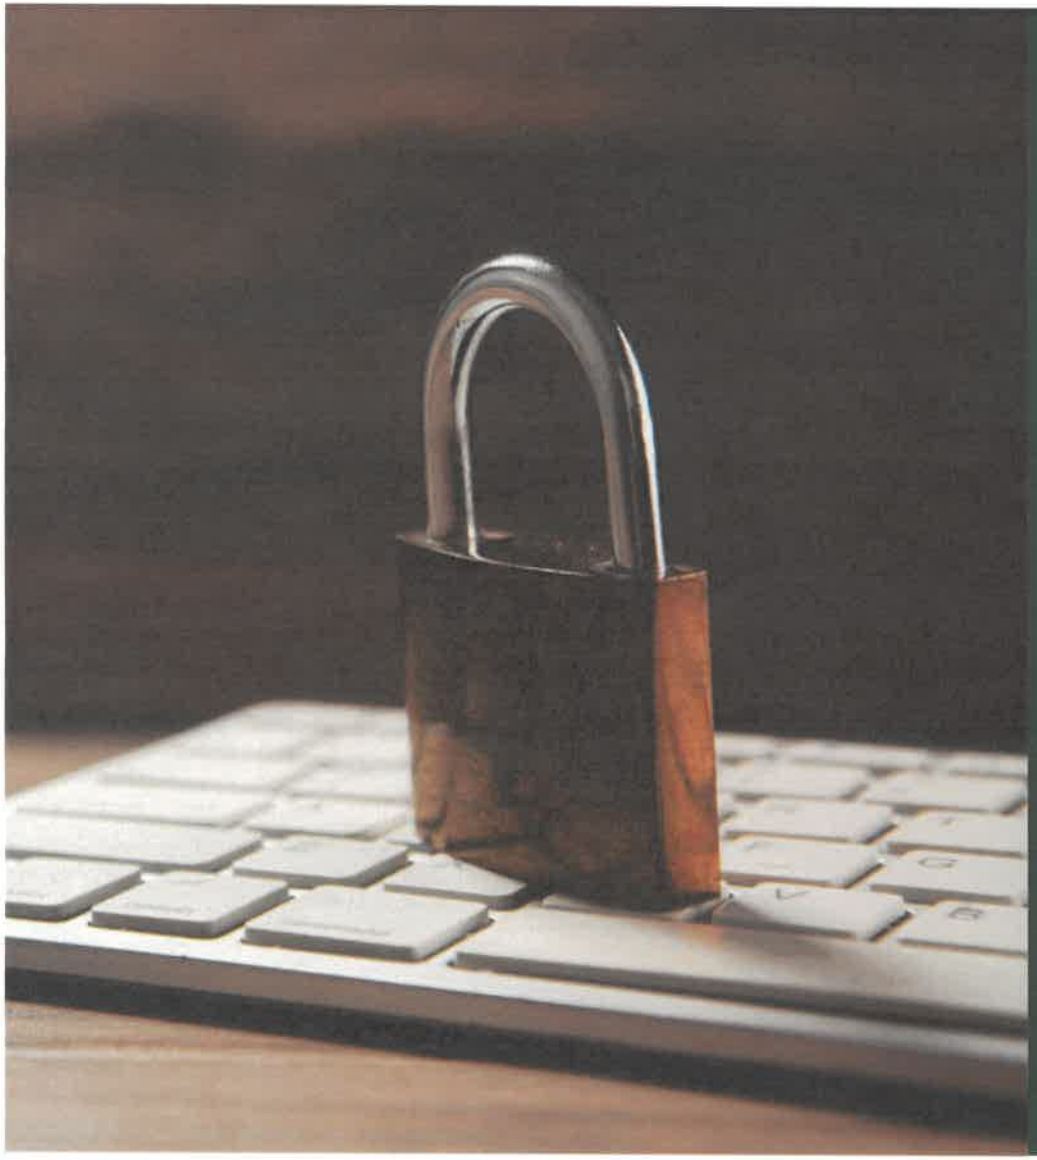


Pace of Innovation



- Data is 100% owned by customers and will never be sold.
- Private customers never have access to government data or hotlists.
- Flock automatically deletes data after 30 days by default.
- Flock LPR only take images of publicly available information.
- Only your agency decides who to share with, not Flock.
- No facial recognition





Cybersecurity

All data is stored with end-to-end encryption including:

- FBI (CJIS)
- NDAA
- SOC2 (Type II)
- ISO 27001 (Data Security)
- ISO 27701 (Data Privacy)
- ISO 42001 (AI)
- Higher Education Community Vendor Assessment Tool (HECVAT)

We are also aligned with the security protocols established by NIST Cybersecurity as well as the Cloud Security Alliance CAIQ framework. Stored on the AWS GovCloud.

Transparency

- **Every search** requires a registered ID with an offense type
- Offense type and user ID are saved in a **permanent audit trail.**
- Flock encourages all agencies to conduct **regular audits to ensure proper usage.**
- Optional **audit assistance tool** to flag atypical search patterns.

Enabling accountability + transparency

Community Safety, Community Values

Industry Leading
Compliance Features

Search Filters

Prevents searches related to immigration or reproductive care at the request of a community.

Federal Limitations

No federal access to nationwide or state wide lookup. Only agencies can share their data, not Flock.

Permanent Audit Logs

Communities can require both search reason and case number be included in any search.

Legal Response

Our contract mandates we alert you to any legal request for your data.

OAKLAND NAACP

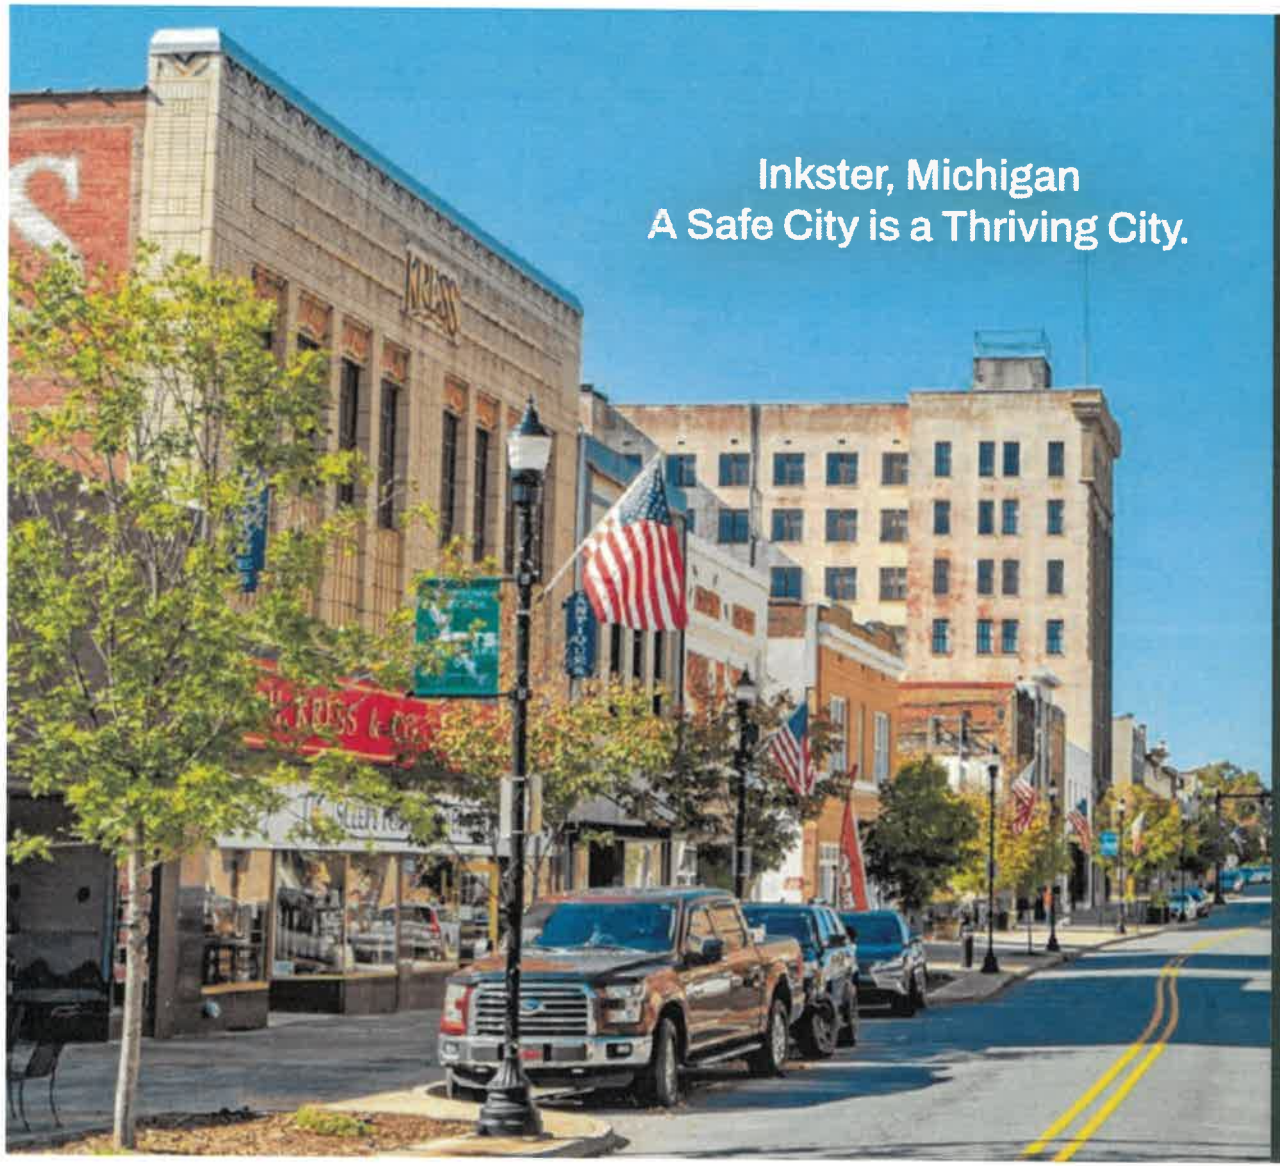
MADD™

"We believe that any technology that **increases post-crash responsiveness and accountability** will help to raise awareness and change behaviors to avoid impaired driving" -MADD

"In a moment when our communities are demanding both public safety and equitable justice, Flock Safety's LPR technology offers a powerful tool to reduce bias in policing.

These cameras are designed to detect only vehicles associated with a crime, removing the subjective judgment that too often leads to disproportionate stops and harmful interactions with Black and Brown residents. It is a clear example of how technology can support safer, fairer policing."

Protecting Vulnerable Communities



Thank You

Inkster for the

Partnership to Keep

Your Community Safe

INKSTER POLICE DEPARTMENT
DEPARTMENT GENERAL ORDER

License Plate Readers
July , 2026

Chief Tamika L. Jenkins: _____

I. POLICY

License plate readers have enhanced law enforcement's ability to locate and recover stolen vehicles, apprehend fugitives, locate missing persons, and assist in criminal investigations. The Inkster Police Department will utilize license plate readers to further legitimate law enforcement goals and enhance public safety.

II. PURPOSE

This General Order will outline the LPR system and guidelines for utilization of the LPR system.

III. DEFINITIONS

A. *LPR*: License Plate Reader(s). An LPR may be fixed or mobile.

B. *LPR System:* The system in its entirety, including all LPR cameras, software, and collected data.

C. *Alert:* A notification sent by the LPR system when it reads a plate that is on a hotlist or in NCIC. Alert information shall be checked to ensure plate information matches the photo provided by the alert, then verified in LEIN/NCIC, at which time a visual verification of the vehicle must be made.

D. *Hot list*: Data files extracted from law enforcement databases which contain a listing of stolen license plates, stolen vehicles, wanted persons, and other vehicles/persons actively being sought by a law enforcement agency such as Amber/Silver Alert vehicles/persons.

IV. GENERAL INFORMATION

A. The LPR system shall be restricted to legitimate law enforcement use for the purpose of furthering law enforcement goals including, but not limited to:

1. The identification and recovery of stolen and wanted vehicles.

2. Ensuring the safety of vulnerable individuals through the recovery of missing and endangered persons.

3. Providing information to officers that will assist in on-going criminal investigations.

4. Apprehension of wanted persons.

B. The LPR system is a computer-based system that utilizes special cameras to capture license plate information. The LPR system captures an image of a license plate and converts it to a text file. The file is then compared to various hot lists generated by local, state, and federal law enforcement agencies, including the National Crime Information Center (NCIC), and generates an alert when there is a hit.

C. The LPR system identifies vehicles and license plates. It does not identify the person operating the motor vehicle.

V. SYSTEM ADMINISTRATION

A. The LPR systems will be administered by the department's Auto Theft Unit and the Investigative Division.

B. Members that choose to have access to the LPR system shall have their own unique user name and password.

C. All activity on the LPR system is monitored and subject to review.

VI. PROCEDURES

A. The LPR system will be comprised of mobile and fixed LPR which will read the license plates of vehicles within the camera's field of vision. The license plates will then be compared to various hot list sources to include, but not limited to:

1. NCIC Stolen Vehicles.

2. NCIC Stolen Plates.

3. NCIC Missing or Endangered Persons.

4. NCIC Wanted Persons.

B. Officers shall be aware that the LPR system will not have access to real time data. Hot lists utilized by the LPR system are updated on a regular basis, but not continually, therefore there may be a delay in entries and removals. Furthermore, there may be occasional errors in the LPR read of a license plate.

C. Upon receiving an alert, officers should verify that the plate and the state of issuance match the hot list alert in the LPR system, including comparison to photos provided by the LPR system.

D. Officers shall then conduct a LEIN/NCIC check of the plate in question and verify the entry.

E. Upon locating the vehicle in question officers shall visually verify that the license plate on the vehicle in question matches that of the image of the license plate captured by the LPR and the LEIN/NCIC check, before proceeding with any investigative or enforcement action.

F. Officers are reminded that an alert alone shall not be the basis for police action.

VII. INVESTIGATIVE USE

The LPR system should be considered as an investigative tool to conduct license plate canvasses in the wake of serious crimes or incidents such as homicides, shots fired, robberies, kidnappings, sexual assaults, pattern crimes, AMBER ALERTS and/or other crimes or incidents.

VIII. RESTRICTIONS OF USE

A. The LPR system shall only be utilized for official and legitimate law enforcement purposes. Only sworn police personnel and Dispatchers shall have access to the LPR system.

B. Except when done pursuant to a court order, it is a violation of this policy to utilize the LPR system to record license plates except those of vehicles that are exposed to public view (areas in which there is no expectation of privacy, e.g., vehicles on a public road or street, or that are on private property but whose license plate(s) are visible from a public road, street, or a place to which members

of the public have access, such as the parking lot of a shop or other business establishment).

IX. DATA RETENTION

A. LPR system data obtained through department LPR will be securely maintained by the respective LPR system manufacturers for 30 days. LPR data shall not be maintained by the department unless the data is needed to support investigations.

B. LPR system data and notifications utilized to support investigations shall be saved by the department. This data will be saved in the physical case file and/or uploaded into the CLEMIS case file and shall be retained pursuant to the department records retention and disposal schedule.

X. RESERVE OFFICERS

Only sworn personnel and Dispatchers shall have access to the LPR system. This General Order does not apply to Reserve Officers.

INKSTER POLICE DEPARTMENT
SPECIAL OPERATING ORDER

Drone as First Responder

DATE ISSUED: July 6, 2026

Chief Tamika L. Jenkins

This SOP will establish operational procedures for the department's Drone First Responder (DFR) program. The DFR program will only be staffed by certified drone operators as selected by the department. The radio designator for this position will be "SKY 1".

There are three 'Hives' strategically placed throughout the city, with two drones at each 'Hive'. The locations of the 'Hives' are as follows:

1. Inkster Police Department – 26279 Michigan Avenue
2. Booker T. Dozier Center – 2025 Middlebelt Road

The locations are meant to maximize coverage and response time over the city. It will be the responsibility of the DFR position to closely monitor the equipment at these locations and properly maintain the Hives and drones to ensure they are operational.

PROCEDURES:

1. All operations shall be performed in accordance with FAA regulations, 14CFR, particularly those portions of Parts 91 and 107 including under a COA, current FAA National Policy regarding UAS Operational Approval, this Special Operating Order and any relevant General Orders. This will include: operating multiple drones in unison or in stages for optimal scene coverage as well as outside the line of sight of the pilot.

2. Dispatch will NOT dispatch drones via the DFR. Dispatch will continue their normal procedure of dispatching patrol to a run in-accordance with current policy.

3. The DFR shall closely monitor all radio traffic and CAD for incidents where it would be advantageous to deploy a drone. The DFR should remain in direct communication with dispatch and patrol officers at all times.

a. DFR can cancel any patrol vehicle where the drone can be used quickly to respond and assess the incident for any further police involvement.

4. Additionally, the DFR operator can respond to other in-progress runs to supplement patrol by way of overwatch support. It will be the responsibility of the DFR operator to assess and prioritize runs that they respond to in accordance with Prioritization of Call for Service.

5. Any supervisor or officer can request the DFR operator to deploy a drone to any in-progress incident. Priority will be given to officers and scenes where there is a risk of assault, fleeing, or other high priority incidents.

6. Other bureaus may request the assistance of the DFR operator for scenes such as accident scenes, large incidents, protests/demonstrations, fires, surveillance, search warrant service or other activity. All requests need to be approved by the DFR operator or supervisor.

7. Anytime a drone is dispatched from its Hive and responds to an incident, a CFS/Report shall be completed in accordance with Department Policy.

    a. Even if the DFR operator proactively responds to a location without an original CFS CAD Entry (Ex: Park and Walks), the DFR operator shall generate a CFS number and complete the CFS in a timely fashion.

8. The recording function shall be initiated anytime the drone(s) leave the Hive and remain activated for the duration of the flight until it returns.

    a. All video recordings will automatically be uploaded to AXON and shall be categorized following established procedures similar to BWC and in-car videos.

9. In the event of an incident(s) that require the use of multiple drones, the DFR operator shall appropriately monitor drone functions and preemptively swap out drones to maximize coverage. Recordings for each drone shall be initiated in accordance with above.

10. In situations where the DFR operator is not present, only certified drone operators as selected by the department may activate and utilize the DFR drones to assist officers. This can be done from a remote location by logging into the system online.

11. The DFR drones shall not be used for the following purposes:

    a. For personal use.

b. Operating in violation of FAA Rules and Regulations.
c. Conducting surveillance of citizens in areas where there is an expectation of privacy without legal authority.

INKSTER DEPARTMENT
DEPARTMENT GENERAL ORDER

Safe City Center

October 2, 2025

CHIEF TAMIKA L. JENKINS: _____

I. PURPOSE

The purpose of this general order is to establish policies, procedures, and operational guidelines for the operation of the Safety City program. The Safe City program is designed to enhance situational awareness, improve response times, support investigations, and proactively reduce crime by leveraging technology, data analysis, and intelligence in real time. The Safe City program uses technology to complement its efforts in the reduction of crime, to effectively allocate and deploy personnel, and to enhance public safety and security.

II. DEFINITIONS

A. Safe City Center: A centralized technology center which unites multiple resources to improve situational awareness and aid in the department's response to special events, criminal investigations, critical incidents, calls for service, or other incidents with a public interest.

B. City-Owned Cameras: A network of security cameras owned by the City of Dearborn.

C. Non-City-Owned Cameras: A network of cameras owned and operated by private citizens, private businesses, and some outside public agencies. The Inkster Police Department may partner with several entities such as local school districts, Michigan Department of Transportation (MDOT), State and Federal agencies, local businesses, and local residents.

D. Camera Registry: A repository of location and contact information for residential or business cameras, provided by the registered owner of the camera(s), that may

be referenced by law enforcement during calls for service or investigations in order to request the review of recorded footage.

III. POLICY

The Safe City Program will support patrol, investigations, specialized units, and command staff by providing timely, accurate, and actionable intelligence to improve public safety outcomes and officer safety by integrating numerous sources of law enforcement data into a single, centralized, user-friendly interface.

Safe City technology shall not be used to invade the privacy of individuals or observe areas, or access data, where a reasonable expectation of privacy exists, except when authorized by a valid court order or under exigent circumstances involving the immediate threat of life or great bodily injury. It is a violation of this policy to use this technology, including but not limited to integrated cameras, camera registry information, officer location data, or incident management data, for any non-official purpose.

Any monitoring of security camera footage in public areas will be conducted in a legal and ethical manner while recognizing and protecting constitutional standards of privacy.

IV. SYSTEM ACCESS

Only those personnel approved by the chief of police, or designee, shall be authorized to access the Safe City software. A list of all users who have access to the Safe City Center, as well as any associated programs, shall be maintained by the system administrator. All personnel will utilize their own individualized username and password to login to the platform, and are not permitted to share their login information unless specifically authorized to do so by the chief of police, or designee.

Individuals authorized to access the Safe City software will:
1. Have a thorough knowledge and understanding of this general order.
2. Be trained on system use and security of access.
3. Be Criminal Justice Information Services (CJIS) compliant.

V. OPERATIONAL GUIDELINES

The Inkster Police Department is committed to the protection of individual rights as governed by the United States Constitution, the Michigan Constitution, and Federal, State, and local law. Collection of public and private video streams are strictly intended for legitimate law enforcement purposes and never for the arbitrary

collection of video surveillance. All video saved shall only be for evidentiary, court, internal or administrative investigation, or training purposes.

As such, the following operational guidelines will apply when accessing available data:

1. Officer Location/Automated Vehicle Location (AVL)
    a. In order to increase officer safety and emergency response effectiveness, the Safe City system will be capable of displaying vehicle and officer locations based off of compatible GPS enabled devices.
    b. This information may be utilized to more effectively dispatch units to incidents, to assist in locating non-responsive officers, and to more effectively allocate resources during emergency responses.
    c. This information is not to be used to monitor the day-to-day activities of officers, although such data may be used if identified during the course of an investigation.
2. Fleet/Body Worn Camera (BWC) Footage
    a. Any access to Fleet/BWC footage via the Safe City system, whether live or recorded, will be in compliance with police car vehicle cameras and Body-Worn Cameras (BWC).
3. City-Owned Camera Footage
    a. Any access to city-owned camera footage via the Safe City system, whether live or recorded, will be in compliance with police department's security camera orders.
4. Non-City Owned Camera Footage
    a. The City of Inkster (The City) may partner with volunteering entities in order to integrate their security camera streams into the Safe City Center's display, with the goal of providing enhanced responsiveness and situational awareness. The City and each participating business shall enter into a memorandum of understanding which will allow access to their video camera system through the Safe City program.
    b. The level of camera stream integration, and access levels, will be determined by the volunteering entity.
    c. Any access to non-city-owned camera footage via the Safe City Center is only permitted to occur in conjunction with official duties, including but not limited to incident response, criminal investigations, and ensuring public safety.
    d. Camera footage produced and maintained by a non-city-owned camera system shall not be disseminated to any third-party entities without the consent of the non-city-owned camera integration participant. Footage obtained from third parties will only be retained/disseminated via consent from the participant or court order.
5. Camera Registry Information
    a. Individuals and businesses may choose to participate in the Safe City program camera registry program by providing location and contact

information in order to facilitate access to non-integrated camera systems on an as-needed basis.

b. Any information in the camera registry may only be used for official purposes in order to further the functions of the police department. That information shall not be provided to third parties without a valid court order or consent of the camera registry participant.

6. License Plate Readers
    a. Any access to city-owned license plate reader data via the Safe City program equipment, will be in compliance with the License Plate Readers general order.

VI. STORAGE AND RETENTION OF MEDIA

The type of video security technology employed and the manner in which recordings are used and stored will affect retention periods.

1. All video footage generated by city-owned security cameras will be stored and retained in accordance with the established records retention schedules for the generating device(s) unless otherwise exported pursuant to an official investigation.
2. All video footage generated by integrated non-city-owned security cameras will remain the property of the integration partner, and will remain accessible to the police department in accordance with parameters set by said party. Video footage will only be retained pursuant to third-party consent or court order.
3. All video footage obtained from city- or non-city-owned camera systems will be retained pursuant to records retention and disposal.

VII. PROHIBITED ACTIVITY

The Safe City Center's integrated video security systems will not intentionally be used to invade the privacy of individuals or observe areas where a reasonable expectation of privacy exists, without the presence of a valid court order.

The Safe City Center's integrated video security equipment shall not be used in an unequal or discriminatory manner and shall not target individuals or groups based solely on actual or perceived characteristics including, but not limited to, race, color, religion, sex, age, national origin or ancestry, disability, gender identity or sexual orientation.

The Safe City-integrated video security equipment shall not be used to harass, intimidate, or discriminate against any individual or group.

Officers are prohibited from personally retaining recordings of activities or information obtained while acting in their official capacity.

Misuse of public video security systems will subject employees to administrative disciplinary action up to termination and potentially criminal penalties.

VII. SYSTEM ACCESS AUDIT

The Safe City platform will log all user activity including, at a minimum, logon/off times, live video access, stored video access, creation of exportable videos by individuals, and any changes to the system configuration. The server also monitors and logs the status of all integrated security camera systems.

The Safe City program supervisor will be responsible for ensuring that the system is used in accordance with all applicable regulations and laws. The Safe City supervisor will also immediately report any misuse to the Investigative Division commanding officer, or designee.

IX. RESERVE OFFICERS, DISPATCHERS, AND CIVILIAN PERSONNEL

This general order applies to all reserve officers, dispatch personnel, and civilian personnel.

REQUEST FOR COUNCIL ACTION

To: Byron H. Nolen, Mayor	**Date: June 10, 2026**

Special Land Use Review (non-marijuana)	$1,450 plus $6 per acre
Special Land Use Review (marijuana)	$5,000 plus $6 per acre
Re-Zoning	
Re-Zoning Review	$1,700
Conditional Re-Zoning Review	$2,000 plus $12 per acre
Zoning Board of Appeals	
Residential variance	$800
Commercial variance	$900
Zoning Code interpretation	$550
Planned Neighborhood Development	
Planned Unit Development	$1,850
PUD Revisions	$640
Miscellaneous	
Pre-Development Meeting	$250
Public hearings	$350
Zoning verification letter/form	$150
Zoning Confirmation Application	$75
Special Meeting request	$1,500
Land Division Lot Split/ Boundary Review	$750 plus $50 per lot
Street/Alley Vacation Request	$800
Sign Review	$50

Approved by Inkster City Council: October 17, 2022

Based on the 2024–2025 fee schedules for these municipalities, here is a comparison of common planning and zoning fees.

Inkster's fees are generally positioned in the middle to upper-mid range for standard commercial applications.

Planning & Zoning Fee Comparison

Fee Type	Inkster	Taylor	Dearborn Heights*	Garden City	Westland
Site Plan Review	$1,750 (< 1 acre)	$2,500 (< 10 acres)	$1,000	$1,500 (Commercial)	$1,000 + $100 / acre
Special Land Use	$1,450 + $6/acre	$2,000	$1,200	$1,200	$1,000
Rezoning	$1,700	$3,500	~$1,000–$1,500	~$1,000	$1,200
Zoning Variance (Res)	$800	$250	~$500	$150	$500
Zoning Variance (Comm)	$900	$1,500	~$900	$300	$800
Zoning Verif. Letter	$150	$350	~$100	$50	$75

It is my recommendation that the fee schedule remain the same.
